CUPE Local 30 had 7 members participating in the first annual Zamboni Summit hosted by the Edmonton Oilers. The event saw 50 Zamboni operators from across the province showcasing their skills on the prestigious Rexal Place ice.

The full day event started with a welcome breakfast and a tour of the facility. After lunch the Zamboni drivers tested their skills through an obstacle course. IMI hosted a post competition banquet. The entrants were also treated to the Oilers game at the end of the day.

For all involved it was a great day of networking with other ice makers across the province. We look forward to participating next year.
